

**产品名称:** Cytokeratin 5(CK5) Mouse Monoclonal Antibody

**产品货号:** AMM22062

### 产品概述 (Summary)

|                   |                                                                                                      |
|-------------------|------------------------------------------------------------------------------------------------------|
| 描述(Description)   | Mouse Monoclonal Antibody                                                                            |
| 宿主(Host)          | Mouse                                                                                                |
| 应用(Application)   | IHC,ELISA                                                                                            |
| 种属反应(Reactivity)  | Human,Dog                                                                                            |
| 偶联物(Conjugation)  | Unconjugated                                                                                         |
| 修饰(Modification)  | Unmodified                                                                                           |
| 同种型(Isotype)      | IgG2a,Kappa                                                                                          |
| 克隆(Clonality)     | Monoclonal                                                                                           |
| 剂型(Form)          | Liquid                                                                                               |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.             |
| 储存溶液(Buffer)      | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%BSA                                                       |
| 纯化 (Purification) | The antibody was affinity-purified from ascites by affinity-chromatography using specific immunogen. |

### 产品应用(Application)

|                       |                                       |
|-----------------------|---------------------------------------|
| 稀释比(Dilution Ratio)   | IHC 1:200-400;ELISA 1:500-5000        |
| 分子量(Molecular Weight) | Calculated MW:62kDa,Observed MW:62kDa |

### 抗原信息(Antigen Information)

|                       |                                                                        |
|-----------------------|------------------------------------------------------------------------|
| 基因名(Gene Name)        | KRT5                                                                   |
| 别名(Alternative Names) |                                                                        |
| 基因 ID(Gene ID)        | Human:3852                                                             |
| SwissProt ID          | Human:P13647                                                           |
| 免疫原(Immunogen)        | Synthesized peptide derived from human Cytokeratin 5 AA range: 500-590 |

### 研究背景 (Background)

keratin 5(KRT5) Homo sapiens The protein encoded by this gene is a member of the keratin gene family. The type II cytokeratins consist of basic or neutral proteins which are arranged in pairs of heterotypic keratin chains coexpressed during differentiation of simple and stratified epithelial tissues. This type II cytokeratin is specifically expressed in the basal layer of the epidermis with

family member KRT14. Mutations in these genes have been associated with a complex of diseases termed epidermolysis bullosa simplex. The type II cytokeratins are clustered in a region of chromosome 12q12-q13. [provided by RefSeq, Jul 2008],

### 研究领域 (Research Area)

Pathology

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Human tonsil tissue was stained with Anti-Cytokeratin 5 Antibody
