

**产品名称:** CKM (6A12) Mouse Monoclonal Antibody

**产品货号:** AMM03324

### 产品概述 (Summary)

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| 描述(Description)   | Mouse monoclonal Antibody                                                                      |
| 宿主(Host)          | Mouse                                                                                          |
| 应用(Application)   | ELISA                                                                                          |
| 种属反应(Reactivity)  | Human                                                                                          |
| 偶联物(Conjugation)  | Unconjugated                                                                                   |
| 修饰(Modification)  | Unmodified                                                                                     |
| 同种型(Isotype)      | IgG2b                                                                                          |
| 克隆(Clonality)     | Monoclonal                                                                                     |
| 剂型(Form)          | Liquid                                                                                         |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.       |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% sodium azide, pH 7.3. |
| 纯化 (Purification) | Affinity Purification                                                                          |

### 产品应用(Application)

|                       |                      |
|-----------------------|----------------------|
| 稀释比(Dilution Ratio)   | ELISA 1:5000-1:20000 |
| 分子量(Molecular Weight) | -                    |

### 抗原信息(Antigen Information)

|                       |                                                                  |
|-----------------------|------------------------------------------------------------------|
| 基因名(Gene Name)        | CKM                                                              |
| 别名(Alternative Names) | CKM; CKMM; Creatine kinase M-type; Creatine kinase M chain; M-CK |
| 基因 ID(Gene ID)        | 1158                                                             |
| SwissProt ID          | P06732                                                           |
| 免疫原(Immunogen)        |                                                                  |

### 研究背景 (Background)

The protein encoded by this gene is a cytoplasmic enzyme involved in energy homeostasis and is an important serum marker for myocardial infarction. The encoded protein reversibly catalyzes the transfer of phosphate between ATP and various phosphogens such as creatine phosphate. It acts as a homodimer in striated muscle as well as in other tissues, and as a

heterodimer with a similar brain isozyme in heart. The encoded protein is a member of the ATP:guanido phosphotransferase protein family.

### 研究领域 (Research Area)

Signal Transduction

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Indirect ELISA assay for antiCKMM mouse mAb. CKBB as control antigen. Antigen coating concentration: 4ug/ml.
