

**产品名称: NM23A (1H9) Mouse Monoclonal Antibody**

**产品货号: AMM03561**

### 产品概述 (Summary)

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| 描述(Description)   | Mouse monoclonal Antibody                                                                      |
| 宿主(Host)          | Mouse                                                                                          |
| 应用(Application)   | WB                                                                                             |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                                |
| 偶联物(Conjugation)  | Unconjugated                                                                                   |
| 修饰(Modification)  | Unmodified                                                                                     |
| 同种型(Isotype)      | IgG1                                                                                           |
| 克隆(Clonality)     | Monoclonal                                                                                     |
| 剂型(Form)          | Liquid                                                                                         |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.       |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% sodium azide, pH 7.3. |
| 纯化 (Purification) | Affinity Purification                                                                          |

### 产品应用(Application)

|                       |                                               |
|-----------------------|-----------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:1000                               |
| 分子量(Molecular Weight) | Calculated MW: 17 kDa; Observed MW: 16,18 kDa |

### 抗原信息(Antigen Information)

|                       |                                                                                                                                                                                                    |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | NME1                                                                                                                                                                                               |
| 别名(Alternative Names) | NME1; NDPKA; NM23; Nucleoside diphosphate kinase A; NDK A; NDP kinase A; Granzyme A-activated DNase; GAAD; Metastasis inhibition factor nm23; Tumor metastatic process-associated protein; nm23-H1 |
| 基因 ID(Gene ID)        | 4830                                                                                                                                                                                               |
| SwissProt ID          | P15531                                                                                                                                                                                             |
| 免疫原(Immunogen)        | Recombinant protein of human NME1                                                                                                                                                                  |

### 研究背景 (Background)

Major role in the synthesis of nucleoside triphosphates other than ATP. Possesses nucleoside-diphosphate kinase,

serine/threonine-specific protein kinase, geranyl and farnesyl pyrophosphate kinase, histidine protein kinase and 3'-5' exonuclease activities.

### 研究领域 (Research Area)

Epigenetics and Nuclear Signaling

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of NME1/NDKA in A549, MCF-7, 3T3, C6 and HeLa lysates using NME1/NDKA antibody.
