

产品名称: GATA1 Mouse Monoclonal Antibody  
产品货号: AMM80847

## 产品概述 (Summary)

|                        |                                 |
|------------------------|---------------------------------|
| 产品名称 (Production Name) | GATA1 Mouse Monoclonal Antibody |
| 描述 (Description)       | Mouse monoclonal Antibody       |
| 宿主 (Host)              | Mouse                           |
| 应用 (Application)       | WB,IHC,ICC,ELISA                |
| 种属反应性 (Reactivity)     | Human                           |

## 产品性能 (Performance)

|                     |                                                                                          |
|---------------------|------------------------------------------------------------------------------------------|
| 偶联物 (Conjugation)   | Unconjugated                                                                             |
| 修饰 (Modification)   | Unmodified                                                                               |
| 同种型 (Isotype)       | Mouse IgG2b                                                                              |
| 克隆 (Clonality)      | Monoclonal                                                                               |
| 形式 (Form)           | Liquid                                                                                   |
| 存放说明 (Storage)      | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |
| 储存溶液 (Buffer)       | Purified antibody in PBS with 0.05% sodium azide.                                        |
| 纯化方式 (Purification) | Affinity Purification                                                                    |

## 免疫原信息 (Immunogen)

|                        |                                                                           |
|------------------------|---------------------------------------------------------------------------|
| 基因名 (Gene Name)        | GATA1                                                                     |
| 别名 (Alternative Names) | GF1; GF-1; NFE1; XLTT; ERYF1; GATA-1; GATA1                               |
| 基因 ID (Gene ID)        | 2623.0                                                                    |
| 蛋白 ID (SwissProt ID)   | P15976.Purified recombinant fragment of human GATA1 expressed in E. Coli. |

## 产品应用 (Application)

|                          |                                                                        |
|--------------------------|------------------------------------------------------------------------|
| 稀释比 (Dilution Ratio)     | WB 1:500-1:2000,IHC 1:200-1:1000,ICC 1:200-1:1000,ELISA 1:5000-1:20000 |
| 蛋白分子量 (Molecular Weight) | 42.7kDa                                                                |

## 研究背景 (Background)

erythroid specific transcription factor,GATA sequence binding protein (same as EryF1,NF-E1,EF-1,EF gamma-a,GF1),expressed in RBC,mast cell,megakaryocyte,hematopoietic progenitor cell,testis,associated with a special class of

产品名称: GATA1 Mouse Monoclonal Antibody  
产品货号: AMM80847

nuclear bodies, activated by erythropoietin, inactivated by coactivation of DEATH receptors (TNFRSF6) mediated caspase cleavage Tissue specificity: Erythrocytes

## 研究领域 (Research Area)

## 图片 (Image Data)

Western blot analysis using GATA1 mouse mAb against K562 (1) cell lysate.

Immunofluorescence analysis of K562(left) cells using GATA1 mouse mAb (green). Blue: DRAQ5 fluorescent DNA dye.

Immunohistochemical analysis of paraffin-embedded human pancreatic cancer, using GATA1 mouse mAb with DAB staining.

产品名称: GATA1 Mouse Monoclonal Antibody  
产品货号: AMM80847
