研究背景 (Background)

产品名称: 14-3-3 alpha/beta Rabbit Polyclonal Antibody
产品货号: APRab00122

Adapter protein implicated in the regulation of a large spectrum of both general and specialized signaling pathways. Binds to a large number of partners, usually by recognition of a phosphoserine or phosphothreonine motif. Binding generally results in the modulation of the activity of the binding partner. Negative regulator of osteogenesis.
