

**产品名称: IKK alpha/beta Rabbit Polyclonal Antibody**

**产品货号: APRab03395**

### 产品概述 (Summary)

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| 描述(Description)   | Rabbit polyclonal Antibody                                                                     |
| 宿主(Host)          | Rabbit                                                                                         |
| 应用(Application)   | WB,IHC,ELISA                                                                                   |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                                |
| 偶联物(Conjugation)  | Unconjugated                                                                                   |
| 修饰(Modification)  | Unmodified                                                                                     |
| 同种型(Isotype)      | IgG                                                                                            |
| 克隆(Clonality)     | Polyclonal                                                                                     |
| 剂型(Form)          | Liquid                                                                                         |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.       |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% sodium azide, pH 7.3. |
| 纯化 (Purification) | Affinity Chromatography                                                                        |

### 产品应用(Application)

|                       |                                                     |
|-----------------------|-----------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:1000,IHC 1:50-1:100,ELISA 1:5000-1:20000 |
| 分子量(Molecular Weight) | Calculated MW: 85 kDa; Observed MW: 85 kDa          |

### 抗原信息(Antigen Information)

|                       |                                                                                                                                                                                                                                                 |
|-----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | CHUK/IKBKB                                                                                                                                                                                                                                      |
| 别名(Alternative Names) | CHUK; IKKA; TCF16; Inhibitor of nuclear factor kappa-B kinase subunit alpha; I-kappa-B kinase alpha; IKK-A; IKK-alpha; IkbKA; IkappaB kinase; Conserved helix-loop-helix ubiquitous kinase; I-kappa-B kinase 1; IKK1; Nuclear factor NF-kappa-B |
| 基因 ID(Gene ID)        | 1147/3551                                                                                                                                                                                                                                       |
| SwissProt ID          | O15111/O14920                                                                                                                                                                                                                                   |
| 免疫原(Immunogen)        | The antiserum was produced against synthesized peptide derived from human IKK-alpha/beta. AA range:141-190                                                                                                                                      |

### 研究背景 (Background)

IKK-beta a kinase of the IKK family. Phosphorylates inhibitors of NF-kappa-B thus leading to the dissociation of the inhibitor/NF-kappa-B complex and ultimately the degradation of the inhibitor. Preferentially found as a heterodimer with IKK-alpha but also as an homodimer.

### 研究领域 (Research Area)

Signal Transduction

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of IKK alpha/beta in HepG2 lysates using IKK alpha/beta antibody.

Immunohistochemistry analysis of paraffin-embedded Human breast carcinoma tissue, using IKKalpha/beta antibody. High-pressure and temperature Sodium Citrate pH 6.0 was used for antigen retrieval. Sample with blocking peptide on the right.
