

**产品名称:** eIF2A Rabbit Polyclonal Antibody

**产品货号:** APRab03829

### 产品概述 (Summary)

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| 描述(Description)   | Rabbit polyclonal Antibody                                                                     |
| 宿主(Host)          | Rabbit                                                                                         |
| 应用(Application)   | WB,IHC,ICC/IF,ELISA                                                                            |
| 种属反应(Reactivity)  | Human,Mouse,Rat,Monkey                                                                         |
| 偶联物(Conjugation)  | Unconjugated                                                                                   |
| 修饰(Modification)  | Unmodified                                                                                     |
| 同种型(Isotype)      | IgG                                                                                            |
| 克隆(Clonality)     | Polyclonal                                                                                     |
| 剂型(Form)          | Liquid                                                                                         |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.       |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% sodium azide, pH 7.3. |
| 纯化 (Purification) | Affinity Purification                                                                          |

### 产品应用(Application)

|                       |                                                                       |
|-----------------------|-----------------------------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:1000,IHC 1:50-1:100,ICC/IF 1:50-1:200,ELISA 1:5000-1:20000 |
| 分子量(Molecular Weight) | Calculated MW: 36 kDa; Observed MW: 36 kDa                            |

### 抗原信息(Antigen Information)

|                       |                                                                                                                                                                |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | EIF2S1                                                                                                                                                         |
| 别名(Alternative Names) | EIF2S1; EIF2A; Eukaryotic translation initiation factor 2 subunit 1; Eukaryotic translation initiation factor 2 subunit alpha; eIF-2-alpha; eIF-2A; eIF-2alpha |
| 基因 ID(Gene ID)        | 1965                                                                                                                                                           |
| SwissProt ID          | P05198                                                                                                                                                         |
| 免疫原(Immunogen)        | A synthetic peptide corresponding to target protein                                                                                                            |

### 研究背景 (Background)

eIF2A a translation initiation factor that functions in the early steps of protein synthesis by forming a ternary complex with GTP and initiator tRNA. This complex binds to a 40s ribosomal subunit, followed by mRNA binding to form a 43S preinitiation

complex.

### 研究领域 (Research Area)

Epigenetics and Nuclear Signaling

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of eIF2A in various lysates using eIF2A antibody.
