

**产品名称: CD158z Rabbit Polyclonal Antibody**

**产品货号: APRab08230**

### 产品概述 (Summary)

|                   |                                                                                                   |
|-------------------|---------------------------------------------------------------------------------------------------|
| 描述(Description)   | Rabbit polyclonal Antibody                                                                        |
| 宿主(Host)          | Rabbit                                                                                            |
| 应用(Application)   | WB,IHC,ICC/IF,ELISA                                                                               |
| 种属反应(Reactivity)  | Human,Rat,Mouse                                                                                   |
| 偶联物(Conjugation)  | Unconjugated                                                                                      |
| 修饰(Modification)  | Unmodified                                                                                        |
| 同种型(Isotype)      | IgG                                                                                               |
| 克隆(Clonality)     | Polyclonal                                                                                        |
| 剂型(Form)          | Liquid                                                                                            |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.          |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% New type preservative N. |
| 纯化 (Purification) | Affinity purification                                                                             |

### 产品应用(Application)

|                       |                                                                         |
|-----------------------|-------------------------------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:2000,IHC 1:100-1:300,ICC/IF 1:50-1:200,ELISA 1:10000-1:20000 |
| 分子量(Molecular Weight) | 45kDa                                                                   |

### 抗原信息(Antigen Information)

|                       |                                                                                                                                                               |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | KIR3DL3                                                                                                                                                       |
| 别名(Alternative Names) | KIR3DL3; CD158Z; KIR3DL7; KIRC1; Killer cell immunoglobulin-like receptor 3DL3; CD158 antigen-like family member Z; Killer cell inhibitory receptor 1; CD158z |
| 基因 ID(Gene ID)        | 100133046.0                                                                                                                                                   |
| SwissProt ID          | Q8N743                                                                                                                                                        |
| 免疫原(Immunogen)        | The antiserum was produced against synthesized peptide derived from the Internal region of human KIR3DL3. AA range:231-280                                    |

### 研究背景 (Background)

killer cell immunoglobulin like receptor, three Ig domains and long cytoplasmic tail 3(KIR3DL3) Homo sapiens Killer cell

immunoglobulin-like receptors (KIRs) are transmembrane glycoproteins expressed by natural killer cells and subsets of T cells. The KIR genes are polymorphic and highly homologous and they are found in a cluster on chromosome 19q13.4 within the 1 Mb leukocyte receptor complex (LRC). The gene content of the KIR gene cluster varies among haplotypes, although several "framework" genes are found in all haplotypes (KIR3DL3, KIR3DP1, KIR3DL4, KIR3DL2). The KIR proteins are classified by the number of extracellular immunoglobulin domains (2D or 3D) and by whether they have a long (L) or short (S) cytoplasmic domain. KIR proteins with the long cytoplasmic domain transduce inhibitory signals upon ligand binding via an immune tyrosine-based inhibitory motif (ITIM), while KIR proteins with the short cytoplasmic domain lack the function: Receptor on natural killer cells. May inhibit the activity of NK cells thus preventing cell lysis. similarity: Belongs to the immunoglobulin superfamily. similarity: Contains 3 Ig-like C2-type (immunoglobulin-like) domains.

### 研究领域 (Research Area)

Antigen processing and presentation;

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of lysate from K562 cells, using KIR3DL3 Antibody.

Western Blot analysis of K562, L929, A549 cells using CD158z Polyclonal Antibody.. Secondary antibody was diluted at 1:20000

Immunohistochemical analysis of paraffin-embedded human-lung-cancer, antibody was diluted at 1:100

Immunohistochemical analysis of paraffin-embedded human-lung-cancer, antibody was diluted at 1:100

Immunohistochemical analysis of paraffin-embedded human-brain, antibody was diluted at 1:100

Immunohistochemical analysis of paraffin-embedded human-brain, antibody was diluted at 1:100
