

**产品名称: CD172b Rabbit Polyclonal Antibody**

**产品货号: APRab08249**

### 产品概述 (Summary)

|                   |                                                                                                   |
|-------------------|---------------------------------------------------------------------------------------------------|
| 描述(Description)   | Rabbit polyclonal Antibody                                                                        |
| 宿主(Host)          | Rabbit                                                                                            |
| 应用(Application)   | WB,ELISA                                                                                          |
| 种属反应(Reactivity)  | Human,Rat,Mouse                                                                                   |
| 偶联物(Conjugation)  | Unconjugated                                                                                      |
| 修饰(Modification)  | Unmodified                                                                                        |
| 同种型(Isotype)      | IgG                                                                                               |
| 克隆(Clonality)     | Polyclonal                                                                                        |
| 剂型(Form)          | Liquid                                                                                            |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.          |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% New type preservative N. |
| 纯化 (Purification) | Affinity purification                                                                             |

### 产品应用(Application)

|                       |                                      |
|-----------------------|--------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:2000,ELISA 1:5000-1:10000 |
| 分子量(Molecular Weight) | 48kDa                                |

### 抗原信息(Antigen Information)

|                       |                                                                                                              |
|-----------------------|--------------------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | SIRPB1                                                                                                       |
| 别名(Alternative Names) | SIRPB1; Signal-regulatory protein beta-1; SIRP-beta-1; CD172 antigen-like family member B; CD antigen CD172b |
| 基因 ID(Gene ID)        | 10326.0                                                                                                      |
| SwissProt ID          | O00241                                                                                                       |
| 免疫原(Immunogen)        | The antiserum was produced against synthesized peptide derived from human SIRPB1. AA range:231-280           |

### 研究背景 (Background)

The protein encoded by this gene is a member of the signal-regulatory-protein (SIRP) family, and also belongs to the

immunoglobulin superfamily. SIRP family members are receptor-type transmembrane glycoproteins known to be involved in the negative regulation of receptor tyrosine kinase-coupled signaling processes. This protein was found to interact with TYROBP/DAP12, a protein bearing immunoreceptor tyrosine-based activation motifs. This protein was also reported to participate in the recruitment of tyrosine kinase SYK. Multiple transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Feb 2009],function:Immunoglobulin-like cell surface receptor involved in the negative regulation of receptor tyrosine kinase-coupled signaling processes.,function:Immunoglobulin-like cell surface receptor involved in the negative regulation of receptor tyrosine kinase-coupled signaling processes. Participates also in the recruitment of tyrosine kinase SYK.,PTM:N-glycosylated.,similarity:Contains 1 Ig-like V-type (immunoglobulin-like) domain.,similarity:Contains 2 Ig-like C1-type (immunoglobulin-like) domains.,subunit:Interacts with TYROBP. This interaction results in the recruitment of SYK.,tissue specificity:Detected in monocytes and dendritic cells.,

## 研究领域 (Research Area)

## 注意事项 (Note)

For research use only.

## 图片 (Image Data)

Western blot analysis of lysates from HeLa, COLO, and HUVEC cells, using SIRPB1 Antibody. The lane on the right is blocked with the synthesized peptide.

Western Blot analysis of various cells using CD172b Polyclonal Antibody
