

**产品名称: GPX2 Rabbit Polyclonal Antibody**

**产品货号: APRab11729**

### 产品概述 (Summary)

|                   |                                                                                                   |
|-------------------|---------------------------------------------------------------------------------------------------|
| 描述(Description)   | Rabbit polyclonal Antibody                                                                        |
| 宿主(Host)          | Rabbit                                                                                            |
| 应用(Application)   | WB                                                                                                |
| 种属反应(Reactivity)  | Human, Mouse, Rat                                                                                 |
| 偶联物(Conjugation)  | Unconjugated                                                                                      |
| 修饰(Modification)  | Unmodified                                                                                        |
| 同种型(Isotype)      | IgG                                                                                               |
| 克隆(Clonality)     | Polyclonal                                                                                        |
| 剂型(Form)          | Liquid                                                                                            |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.          |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% New type preservative N. |
| 纯化 (Purification) | Affinity Purified                                                                                 |

### 产品应用(Application)

|                       |                     |
|-----------------------|---------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:2000     |
| 分子量(Molecular Weight) | Observed MW: 21 kDa |

### 抗原信息(Antigen Information)

|                       |                                                                    |
|-----------------------|--------------------------------------------------------------------|
| 基因名(Gene Name)        | GPX2                                                               |
| 别名(Alternative Names) | GI GPx; GPRP; GPRP-2; GPx-GI; GSHPx 2; GSHPx GI; GSHPx-2; GSHPx-GI |
| 基因 ID(Gene ID)        | 2877.0                                                             |
| SwissProt ID          | P18283                                                             |
| 免疫原(Immunogen)        | A synthetic peptide of human GPX2                                  |

### 研究背景 (Background)

The protein encoded by this gene belongs to the glutathione peroxidase family, members of which catalyze the reduction of organic hydroperoxides and hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) by glutathione, and thereby protect cells against oxidative damage. Several isozymes of this gene family exist in vertebrates, which vary in cellular location and substrate specificity. This isozyme is

predominantly expressed in the gastrointestinal tract (also in liver in human), is localized in the cytoplasm, and whose preferred substrate is hydrogen peroxide. Overexpression of this gene is associated with increased differentiation and proliferation in colorectal cancer. This isozyme is also a selenoprotein, containing the rare amino acid selenocysteine (Sec) at its active site. Sec is encoded by the UGA codon, which normally signals translation termination. The 3' UTRs of selenoprotein mRNAs contain a conserved stem-loop structure, designated the Sec insertion sequence (SECIS) element, that is necessary for the recognition of UGA as a Sec codon, rather than as a stop signal. Alternatively spliced transcript variants have been found for this gene. [provided by RefSeq, Jul 2016],

### 研究领域 (Research Area)

Cell Biology

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of lysates from U2OS cells, GPX2 Rabbit Polyclonal Antibody was diluted at 1:1000, 4° over night
