

**产品名称: MMTAG2 Rabbit Polyclonal Antibody**

**产品货号: APRab14004**

### 产品概述 (Summary)

|                   |                                                                                                   |
|-------------------|---------------------------------------------------------------------------------------------------|
| 描述(Description)   | Rabbit polyclonal Antibody                                                                        |
| 宿主(Host)          | Rabbit                                                                                            |
| 应用(Application)   | WB,ELISA                                                                                          |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                                   |
| 偶联物(Conjugation)  | Unconjugated                                                                                      |
| 修饰(Modification)  | Unmodified                                                                                        |
| 同种型(Isotype)      | IgG                                                                                               |
| 克隆(Clonality)     | Polyclonal                                                                                        |
| 剂型(Form)          | Liquid                                                                                            |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.          |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% New type preservative N. |
| 纯化 (Purification) | Affinity purification                                                                             |

### 产品应用(Application)

|                       |                                      |
|-----------------------|--------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:2000,ELISA 1:5000-1:10000 |
| 分子量(Molecular Weight) | 34kDa                                |

### 抗原信息(Antigen Information)

|                       |                                                                                                     |
|-----------------------|-----------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | MMTAG2                                                                                              |
| 别名(Alternative Names) | MMTAG2; C1orf35; Multiple myeloma tumor-associated protein 2; hMMTAG2                               |
| 基因 ID(Gene ID)        | 79169.0                                                                                             |
| SwissProt ID          | Q9BU76                                                                                              |
| 免疫原(Immunogen)        | The antiserum was produced against synthesized peptide derived from human MMTAG2.<br>AA range:10-59 |

### 研究背景 (Background)

Transcription factor that plays an important role in cellular development and cell survival. Regulates the expression of numerous target genes, including EPO. Plays an essential role for development of the urogenital system. Recognizes and binds

to the DNA sequence 5'-CGCCCCGC-3'. It has a tumor suppressor as well as an oncogenic role in tumor formation. Function may be isoform-specific: isoforms lacking the KTS motif may act as transcription factors. Isoforms containing the KTS motif may bind mRNA and play a role in mRNA metabolism or splicing. Isoform 1 has lower affinity for DNA, and can bind RNA. Transcription factor that plays an important role in cellular development and cell survival. ### 研究领域 (Research Area)

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of lysates from K562 cells, using MMTAG2 Antibody. The lane on the right is blocked with the synthesized peptide.

Western blot analysis of 293T lysis using MMTAG2 antibody. Antibody was diluted at 1:1000
