

**产品名称:** RM23 Rabbit Polyclonal Antibody

**产品货号:** APRab17239

### 产品概述 (Summary)

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| 描述(Description)   | Rabbit polyclonal Antibody                                                               |
| 宿主(Host)          | Rabbit                                                                                   |
| 应用(Application)   | WB,ELISA                                                                                 |
| 种属反应(Reactivity)  | Human,Rat,Mouse                                                                          |
| 偶联物(Conjugation)  | Unconjugated                                                                             |
| 修饰(Modification)  | Unmodified                                                                               |
| 同种型(Isotype)      | IgG                                                                                      |
| 克隆(Clonality)     | Polyclonal                                                                               |
| 剂型(Form)          | Liquid                                                                                   |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |
| 储存溶液(Buffer)      | Liquid in PBS containing 50% glycerol, and 0.02% New type preservative N.                |
| 纯化 (Purification) | Affinity purification                                                                    |

### 产品应用(Application)

|                       |                                      |
|-----------------------|--------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:2000,ELISA 1:5000-1:20000 |
| 分子量(Molecular Weight) | 16kDa                                |

### 抗原信息(Antigen Information)

|                       |                                                                      |
|-----------------------|----------------------------------------------------------------------|
| 基因名(Gene Name)        | MRPL23 L23MRP RPL23L                                                 |
| 别名(Alternative Names) |                                                                      |
| 基因 ID(Gene ID)        | 6150.0                                                               |
| SwissProt ID          | Q16540                                                               |
| 免疫原(Immunogen)        | Synthesized peptide derived from human protein . at AA range: 40-120 |

### 研究背景 (Background)

Mammalian mitochondrial ribosomal proteins are encoded by nuclear genes and help in protein synthesis within the mitochondrion. Mitochondrial ribosomes (mitoribosomes) consist of a small 28S subunit and a large 39S subunit. They have an estimated 75% protein to rRNA composition compared to prokaryotic ribosomes, where this ratio is reversed. Another difference between mammalian mitoribosomes and prokaryotic ribosomes is that the latter contain a 5S rRNA. Among

different species, the proteins comprising the mitoribosome differ greatly in sequence, and sometimes in biochemical properties, which prevents easy recognition by sequence homology. This gene encodes a 39S subunit protein. The gene is biallelically expressed, despite its location within a region of imprinted genes on chromosome 11. [provided by RefSeq, Jul 2008],similarity:Belongs to the ribosomal protein L23P family.,

## 研究领域 (Research Area)

## 注意事项 (Note)

For research use only.

## 图片 (Image Data)

Western blot analysis of lysates from A431 cells, RM23 Rabbit Polyclonal Antibody was diluted at 1:1000, 4°over night
