

**产品名称:** Annexin A1 Rabbit Monoclonal Antibody

**产品货号:** AMRe01649

### 产品概述 (Summary)

|                   |                                                                                                      |
|-------------------|------------------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                               |
| 宿主(Host)          | Rabbit                                                                                               |
| 应用(Application)   | WB,IHC,ICC/IF,IP                                                                                     |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                                      |
| 偶联物(Conjugation)  | Unconjugated                                                                                         |
| 修饰(Modification)  | Unmodified                                                                                           |
| 同种型(Isotype)      | IgG                                                                                                  |
| 克隆(Clonality)     | Monoclonal                                                                                           |
| 剂型(Form)          | Liquid                                                                                               |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.             |
| 储存溶液(Buffer)      | 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% Sodium azide and 0.05% protective protein |
| 纯化 (Purification) | Affinity Purification                                                                                |

### 产品应用(Application)

|                       |                                                               |
|-----------------------|---------------------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:1000,IHC 1:50-1:100,ICC/IF 1:50-1:200,IP 1:20-1:50 |
| 分子量(Molecular Weight) | Calculated MW: 39 kDa; Observed MW: 39 kDa                    |

### 抗原信息(Antigen Information)

|                       |                                                                                                                                                        |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | ANXA1                                                                                                                                                  |
| 别名(Alternative Names) | ANXA1; ANX1; LPC1; Annexin A1; Annexin I; Annexin-1; Calpactin II; Calpactin-2; Chromobindin-9; Lipocortin I; Phospholipase A2 inhibitory protein; p35 |
| 基因 ID(Gene ID)        | 301                                                                                                                                                    |
| SwissProt ID          | P04083                                                                                                                                                 |
| 免疫原(Immunogen)        | Recombinant protein of human Annexin A1                                                                                                                |

### 研究背景 (Background)

Plays important roles in the innate immune response as effector of glucocorticoid-mediated responses and regulator of the inflammatory process. Has anti-inflammatory activity (PubMed:8425544). Plays a role in glucocorticoid-mediated down-

regulation of the early phase of the inflammatory response . Promotes resolution of inflammation and wound healing (PubMed:25664854). Functions at least in part by activating the formyl peptide receptors and downstream signaling cascades (PubMed:15187149, PubMed:25664854). Promotes chemotaxis of granulocytes and monocytes via activation of the formyl peptide receptors (PubMed:15187149). Contributes to the adaptive immune response by enhancing signaling cascades that are triggered by T-cell activation, regulates differentiation and proliferation of activated T-cells (PubMed:17008549). Promotes the differentiation of T-cells into Th1 cells and negatively regulates differentiation into Th2 cells (PubMed:17008549). Has no effect on unstimulated T cells (PubMed:17008549). Promotes rearrangement of the actin cytoskeleton, cell polarization and cell migration (PubMed:15187149). Negatively regulates hormone exocytosis via activation of the formyl peptide receptors and reorganization of the actin cytoskeleton (PubMed:19625660). Has high affinity for  $\text{Ca}^{2+}$  and can bind up to eight  $\text{Ca}^{2+}$  ions . Displays  $\text{Ca}^{2+}$ -dependent binding to phospholipid membranes (PubMed:2532504, PubMed:8557678). Plays a role in the formation of phagocytic cups and phagosomes. Plays a role in phagocytosis by mediating the  $\text{Ca}^{2+}$ -dependent interaction between phagosomes and the actin cytoskeleton .

## 研究领域 (Research Area)

Signal Transduction

## 注意事项 (Note)

For research use only.

## 图片 (Image Data)

Immunocytochemistry analysis of Annexin A1 (green) in A549 using Annexin A1 antibody, and DAPI (blue).

Western blot analysis of Annexin A1 in K562, C6, 3T3, HeLa lysates using Annexin A1 antibody.

Immunohistochemistry analysis of paraffin-embedded Human tonsil using Annexin A1 antibody. High-pressure and temperature Sodium Citrate pH 6.0 was used for antigen retrieval.
