

**产品名称:** Phospho-Rb (Ser807) Rabbit Monoclonal Antibody

**产品货号:** AMRe03902

### 产品概述 (Summary)

|                   |                                                                                                                |
|-------------------|----------------------------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                                         |
| 宿主(Host)          | Rabbit                                                                                                         |
| 应用(Application)   | WB,IHC,ICC/IF                                                                                                  |
| 种属反应(Reactivity)  | Human, Mouse, Rat                                                                                              |
| 偶联物(Conjugation)  | Unconjugated                                                                                                   |
| 修饰(Modification)  | Phosphorylated                                                                                                 |
| 同种型(Isotype)      | IgG                                                                                                            |
| 克隆(Clonality)     | Monoclonal                                                                                                     |
| 剂型(Form)          | Liquid                                                                                                         |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.                       |
| 储存溶液(Buffer)      | Liquid in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% sodium azide and 0.05% protective protein. |
| 纯化 (Purification) | Affinity Purification                                                                                          |

### 产品应用(Application)

|                       |                                                  |
|-----------------------|--------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:1000,IHC 1:50-1:100,ICC/IF 1:50-1:200 |
| 分子量(Molecular Weight) | Calculated MW:106 kDa;Observed MW: 110 kDa       |

### 抗原信息(Antigen Information)

|                       |                                                                             |
|-----------------------|-----------------------------------------------------------------------------|
| 基因名(Gene Name)        | RB1                                                                         |
| 别名(Alternative Names) | RB1; Retinoblastoma-associated protein; p105-Rb; pRb; Rb; pp110             |
| 基因 ID(Gene ID)        | 5925                                                                        |
| SwissProt ID          | P06400                                                                      |
| 免疫原(Immunogen)        | A synthetic Phosphorylated peptide corresponding to residues target protein |

### 研究背景 (Background)

Cell cycle-dependent phosphorylation by a CDK inhibits Rb target binding and allows cell cycle progression. Rb inactivation and subsequent cell cycle progression likely requires an initial phosphorylation by cyclin D-CDK4/6 followed by cyclin E-CDK2 phosphorylation. Specificity of different CDK/cyclin complexes has been observed in vitro and cyclin D1 is required for Ser780

phosphorylation in vivo.

### 研究领域 (Research Area)

Cell Biology

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of Phospho-Rb (Ser807) in K562, C6 lysates using Phospho-Rb (Ser807) antibody.
