

**产品名称:** Phospho-CDC37 (S13) (15P11) Rabbit Monoclonal Antibody

**产品货号:** AMRe05869

### 产品概述 (Summary)

|                   |                                                                                                                             |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                                                      |
| 宿主(Host)          | Rabbit                                                                                                                      |
| 应用(Application)   | WB                                                                                                                          |
| 种属反应(Reactivity)  | Human, Mouse, Rat                                                                                                           |
| 偶联物(Conjugation)  | Unconjugated                                                                                                                |
| 修饰(Modification)  | Phosphorylated                                                                                                              |
| 同种型(Isotype)      | IgG                                                                                                                         |
| 克隆(Clonality)     | Monoclonal                                                                                                                  |
| 剂型(Form)          | Liquid                                                                                                                      |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.                                    |
| 储存溶液(Buffer)      | Supplied in 50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40%Glycerol, 0.01% New type preservative N and 0.05% protective protein. |
| 纯化 (Purification) | Affinity purification                                                                                                       |

### 产品应用(Application)

|                       |                  |
|-----------------------|------------------|
| 稀释比(Dilution Ratio)   | WB 1:1000-1:5000 |
| 分子量(Molecular Weight) | 45kDa            |

### 抗原信息(Antigen Information)

|                       |                                                                                       |
|-----------------------|---------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | CDC37                                                                                 |
| 别名(Alternative Names) | CC37; Hsp90 chaperone protein kinase-targeting subunit; Hsp90 co-chaperone Cdc37;     |
| 基因 ID(Gene ID)        | 11140.0                                                                               |
| SwissProt ID          | Q16543                                                                                |
| 免疫原(Immunogen)        | A synthetic phosphopeptide corresponding to residues surrounding Ser13 of human Cdc37 |

### 研究背景 (Background)

CDC37 is an important component of the HSP90 chaperone complex. It was initially identified for its involvement in cell-cycle progression and was later found to have a much broader role as a chaperone for a wide variety of kinases and other proteins. CDC37 protein has an amino-terminal kinase binding domain followed by a central HSP90 binding domain. Co-chaperone that

binds to numerous kinases and promotes their interaction with the Hsp90 complex, resulting in stabilization and promotion of their activity (PubMed:8666233). Inhibits HSP90AA1 ATPase activity (PubMed:23569206).

### 研究领域 (Research Area)

Cell Biology

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot detection of Cdc37 (phospho-Ser13) in HeLa,Rat Brain,Ramos cell lysates using Cdc37 (phospho-Ser13) antibody(1:1000 diluted).
