

**产品名称: Drosha (18P9) Rabbit Monoclonal Antibody**

**产品货号: AMRe10163**

### 产品概述 (Summary)

|                   |                                                                                                                                                                                       |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                                                                                                                |
| 宿主(Host)          | Rabbit                                                                                                                                                                                |
| 应用(Application)   | WB, ICC/IF, FC                                                                                                                                                                        |
| 种属反应(Reactivity)  | Human, Mouse, Rat                                                                                                                                                                     |
| 偶联物(Conjugation)  | Unconjugated                                                                                                                                                                          |
| 修饰(Modification)  | Unmodified                                                                                                                                                                            |
| 同种型(Isotype)      | IgG                                                                                                                                                                                   |
| 克隆(Clonality)     | Monoclonal                                                                                                                                                                            |
| 剂型(Form)          | Liquid                                                                                                                                                                                |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.<br>Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% New type preservative |
| 储存溶液(Buffer)      | N and 50% glycerol. Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.                                                                                    |
| 纯化 (Purification) | Affinity purification                                                                                                                                                                 |

### 产品应用(Application)

|                       |                                                   |
|-----------------------|---------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:500-1:2000, ICC/IF 1:20-1:50, FC 1:200-1:500 |
| 分子量(Molecular Weight) | 159kDa                                            |

### 抗原信息(Antigen Information)

|                       |                                                                                                                |
|-----------------------|----------------------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | DROSHA                                                                                                         |
| 别名(Alternative Names) | Ribonuclease 3 (EC:3.1.26.3); Protein Drosha; Ribonuclease III; RNase III; p241; DROSHA; RN3; RNASE3L; RNASEN; |
| 基因 ID(Gene ID)        | 29102.0                                                                                                        |
| SwissProt ID          | Q9NRR4                                                                                                         |
| 免疫原(Immunogen)        | Recombinant protein of human DROSHA                                                                            |

### 研究背景 (Background)

Drosha was identified as a nuclear RNase III that catalyzes the initial step of microRNA (miRNA) processing. This enzyme

processes the long primary transcript pri-miRNAs into stem-looped pre-miRNAs. Interference of Drosha results in the increase of pri-miRNAs and the decrease of pre-miRNAs. Drosha exists in a multiprotein complex called Microprocessor along with other components such as DGCR8. Drosha, along with DGCR8, is necessary for miRNA biogenesis. Ribonuclease III double-stranded (ds) RNA-specific endoribonuclease that is involved in the initial step of microRNA (miRNA) biogenesis. Component of the microprocessor complex that is required to process primary miRNA transcripts (pri-miRNAs) to release precursor miRNA (pre-miRNA) in the nucleus. Within the microprocessor complex, DROSHA cleaves the 3' and 5' strands of a stem-loop in pri-miRNAs (processing center 11 bp from the dsRNA-ssRNA junction) to release hairpin-shaped pre-miRNAs that are subsequently cut by the cytoplasmic DICER to generate mature miRNAs. Involved also in pre-rRNA processing. Cleaves double-strand RNA and does not cleave single-strand RNA. Involved in the formation of GW bodies.

### 研究领域 (Research Area)

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

Western blot analysis of Drosha expression in 293 cell lysate.
