

**产品名称: Phospho-Paxillin (Tyr118) Rabbit Monoclonal Antibody**

**产品货号: AMRe21147**

### 产品概述 (Summary)

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                   |
| 宿主(Host)          | Rabbit                                                                                   |
| 应用(Application)   | WB,IF,ELISA                                                                              |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                          |
| 偶联物(Conjugation)  | Phospho                                                                                  |
| 修饰(Modification)  | Phosphorylated                                                                           |
| 同种型(Isotype)      | IgG,Kappa                                                                                |
| 克隆(Clonality)     | Monoclonal                                                                               |
| 剂型(Form)          | Liquid                                                                                   |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |
| 储存溶液(Buffer)      | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%protective protein                            |
| 纯化 (Purification) | Protein A                                                                                |

### 产品应用(Application)

|                       |                                                                         |
|-----------------------|-------------------------------------------------------------------------|
| 稀释比(Dilution Ratio)   | IHC 1:200-1:1000;WB 1:1000-1:5000;IF 1:200-1:1000;ELISA 1:5000-1:20000; |
| 分子量(Molecular Weight) | Calculated MW:65kD;Observed MW:65kD                                     |

### 抗原信息(Antigen Information)

|                       |                                                                             |
|-----------------------|-----------------------------------------------------------------------------|
| 基因名(Gene Name)        | PXN                                                                         |
| 别名(Alternative Names) | PXN;Paxillin                                                                |
| 基因 ID(Gene ID)        | 5829.0                                                                      |
| SwissProt ID          | P49023                                                                      |
| 免疫原(Immunogen)        | A synthetic Phosphorylated peptide corresponding to residues target protein |

### 研究背景 (Background)

Cell localization:Cytoplasm, Nucleus.This gene encodes a cytoskeletal protein involved in actin-membrane attachment at sites of cell adhesion to the extracellular matrix (focal adhesion). Alternatively spliced transcript variants encoding different isoforms have been described for this gene. These isoforms exhibit different expression pattern, and have different biochemical, as well as physiological properties (PMID:9054445). [provided by RefSeq, Aug 2011],

## 研究领域 (Research Area)

Signal Transduction; Cancer

## 注意事项 (Note)

For research use only.

## 图片 (Image Data)

HeLa cell lysates were separated by 4-20% SDS-PAGE, and the membrane was blotted with Paxillin (Phospho Tyr118) Rabbit Monoclonal Antibody 1:1000. The HRP-conjugated Goat anti-Rabbit IgG(H + L) antibody was used to detect the antibody.
