

**产品名称: EZH2 Rabbit Monoclonal Antibody**

**产品货号: AMRe21173**

### 产品概述 (Summary)

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                   |
| 宿主(Host)          | Rabbit                                                                                   |
| 应用(Application)   | WB,IHC,IF,ELISA                                                                          |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                          |
| 偶联物(Conjugation)  | Unconjugated                                                                             |
| 修饰(Modification)  | Unmodified                                                                               |
| 同种型(Isotype)      | IgG,Kappa                                                                                |
| 克隆(Clonality)     | 5G7                                                                                      |
| 剂型(Form)          | Liquid                                                                                   |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |
| 储存溶液(Buffer)      | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%protective protein                            |
| 纯化 (Purification) | Protein A                                                                                |

### 产品应用(Application)

|                       |                                                                          |
|-----------------------|--------------------------------------------------------------------------|
| 稀释比(Dilution Ratio)   | IHC 1:500-1:1000;WB 1:2000-1:10000;IF 1:200-1:1000;ELISA 1:5000-1:20000; |
| 分子量(Molecular Weight) | Calculated MW:85kD;Observed MW:85kD                                      |

### 抗原信息(Antigen Information)

|                       |                                        |
|-----------------------|----------------------------------------|
| 基因名(Gene Name)        | EZH2                                   |
| 别名(Alternative Names) | KMT6                                   |
| 基因 ID(Gene ID)        | 2146.0                                 |
| SwissProt ID          | Q15910                                 |
| 免疫原(Immunogen)        | A synthetic peptide of human KMT6/EZH2 |

### 研究背景 (Background)

Cell localization:Nucleus.enhancer of zeste 2 polycomb repressive complex 2 subunit(EZH2) Homo sapiens This gene encodes a member of the Polycomb-group (PcG) family. PcG family members form multimeric protein complexes, which are involved in maintaining the transcriptional repressive state of genes over successive cell generations. This protein associates with the embryonic ectoderm development protein, the VAV1 oncoprotein, and the X-linked nuclear protein. This protein may play a

role in the hematopoietic and central nervous systems. Multiple alternatively spliced transcript variants encoding distinct isoforms have been identified for this gene. [provided by RefSeq, Feb 2011],

### 研究领域 (Research Area)

Epigenetics and Nuclear Signaling; Cancer

### 注意事项 (Note)

For research use only.

### 图片 (Image Data)

C6 whole cell lysates were separated by 10% SDS-PAGE, and the membrane was blotted with EZH2 Rabbit Monoclonal Antibody(1:1000). The HRP-conjugated Goat anti-Rabbit IgG(H + L) antibody was used to detect the antibody.
