

**产品名称:** Lamin A/C Rabbit Monoclonal Antibody

**产品货号:** AMRe21305

## 产品概述 (Summary)

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                   |
| 宿主(Host)          | Rabbit                                                                                   |
| 应用(Application)   | WB,IHC,ICC/IF,ELISA,IP                                                                   |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                          |
| 偶联物(Conjugation)  | Unconjugated                                                                             |
| 修饰(Modification)  | Unmodified                                                                               |
| 同种型(Isotype)      | IgG,Kappa                                                                                |
| 克隆(Clonality)     | Monoclonal                                                                               |
| 剂型(Form)          | Liquid                                                                                   |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |
| 储存溶液(Buffer)      | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%protective protein                            |
| 纯化 (Purification) | Protein A                                                                                |

## 产品应用(Application)

|                       |                                                                                            |
|-----------------------|--------------------------------------------------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:2000-1:10000,IHC 1:1000-1:4000,ICC/IF 1:200-1:1000,ELISA 1:5000-1:20000,IP 1:50-1:200 |
| 分子量(Molecular Weight) | Calculated MW:74kD,63kD;Observed MW:74kD,63kD                                              |

## 抗原信息(Antigen Information)

|                       |                                                                                           |
|-----------------------|-------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | LMNA LMN1                                                                                 |
| 别名(Alternative Names) | Prelamin-A/C [Cleaved into: Lamin-A/C (70 kDa lamin) (Renal carcinoma antigen NY-REN-32)] |
| 基因 ID(Gene ID)        | 4000.0                                                                                    |
| SwissProt ID          | P02545                                                                                    |
| 免疫原(Immunogen)        | A synthetic peptide of human Lamin A/C                                                    |

## 研究背景 (Background)

Cell localization:Nucleus.Lamin A/C(LMNA) Homo sapiens    The nuclear lamina consists of a two-dimensional matrix of proteins located next to the inner nuclear membrane. The lamin family of proteins make up the matrix and are highly conserved

in evolution. During mitosis, the lamina matrix is reversibly disassembled as the lamin proteins are phosphorylated. Lamin proteins are thought to be involved in nuclear stability, chromatin structure and gene expression. Vertebrate lamins consist of two types, A and B. Alternative splicing results in multiple transcript variants. Mutations in this gene lead to several diseases: Emery-Dreifuss muscular dystrophy, familial partial lipodystrophy, limb girdle muscular dystrophy, dilated cardiomyopathy, Charcot-Marie-Tooth disease, and Hutchinson-Gilford progeria syndrome. [provided by RefSeq, Apr 2012],

## 研究领域 (Research Area)

## 注意事项 (Note)

For research use only.

## 图片 (Image Data)

HaCat cell lysates were separated by 4-20% SDS-PAGE, and the membrane was blotted with Lamin A/C Rabbit Monoclonal Antibody 1:1000. The HRP-conjugated Goat anti-Rabbit IgG(H + L) antibody was used to detect the antibody.
