研究背景 (Background)

产品名称: GAP43 Rabbit Monoclonal Antibody
产品货号: AMRe21353

Cell localization: Cytoplasm, Membrane. The protein encoded by this gene has been termed a 'growth' or 'plasticity' protein because it is expressed at high levels in neuronal growth cones during development and axonal regeneration. This protein is considered a crucial component of an effective regenerative response in the nervous system. Alternatively spliced transcript variants encoding distinct isoforms have been found for this gene. [provided by RefSeq, Jul 2008],
