

**产品名称:** p27 KIP 1 Rabbit Monoclonal Antibody

**产品货号:** AMRe21522

### 产品概述 (Summary)

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| 描述(Description)   | Recombinant rabbit monoclonal antibody                                                   |
| 宿主(Host)          | Rabbit                                                                                   |
| 应用(Application)   | WB,IHC,ICC/IF,ELISA,IP                                                                   |
| 种属反应(Reactivity)  | Human,Mouse,Rat                                                                          |
| 偶联物(Conjugation)  | Unconjugated                                                                             |
| 修饰(Modification)  | Unmodified                                                                               |
| 同种型(Isotype)      | IgG,Kappa                                                                                |
| 克隆(Clonality)     | Monoclonal                                                                               |
| 剂型(Form)          | Liquid                                                                                   |
| 保存条件(Storage)     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles. |
| 储存溶液(Buffer)      | PBS, 50% glycerol, 0.05% Proclin 300, 0.05%protective protein                            |
| 纯化 (Purification) | Protein A                                                                                |

### 产品应用(Application)

|                       |                                                                                          |
|-----------------------|------------------------------------------------------------------------------------------|
| 稀释比(Dilution Ratio)   | WB 1:1000-1:5000,IHC 1:200-1:1000,ICC/IF 1:200-1:1000,ELISA 1:5000-1:20000,IP 1:50-1:200 |
| 分子量(Molecular Weight) | Calculated MW:27kD;Observed MW:27kD                                                      |

### 抗原信息(Antigen Information)

|                       |                                                                                                |
|-----------------------|------------------------------------------------------------------------------------------------|
| 基因名(Gene Name)        | CDKN1B                                                                                         |
| 别名(Alternative Names) | CDKN1B;KIP1;Cyclin-dependent kinase inhibitor 1B;Cyclin-dependent kinase inhibitor p27;p27Kip1 |
| 基因 ID(Gene ID)        | 1027.0                                                                                         |
| SwissProt ID          | P46527                                                                                         |
| 免疫原(Immunogen)        | A synthetic peptide corresponding to target protein                                            |

### 研究背景 (Background)

Cell localization:Nucleus.This gene encodes a cyclin-dependent kinase inhibitor, which shares a limited similarity with CDK inhibitor CDKN1A/p21. The encoded protein binds to and prevents the activation of cyclin E-CDK2 or cyclin D-CDK4 complexes, and thus controls the cell cycle progression at G1. The degradation of this protein, which is triggered by its CDK dependent

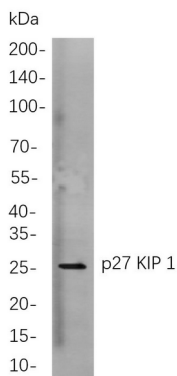

phosphorylation and subsequent ubiquitination by SCF complexes, is required for the cellular transition from quiescence to the proliferative state. Mutations in this gene are associated with multiple endocrine neoplasia type IV (MEN4). [provided by RefSeq, Apr 2014],

## 研究领域 (Research Area)

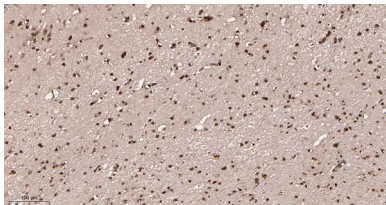

## 注意事项 (Note)

For research use only.

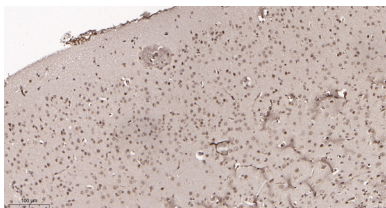

## 图片 (Image Data)

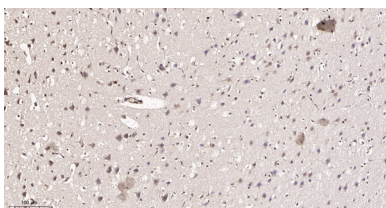

Western blot analysis of lysates from HeLa cells, using p27 KIP 1 Rabbit mAb. The HRP-conjugated Goat anti-Rabbit IgG antibody was used to detect the antibody.

Immunohistochemical analysis of paraffin-embedded human brain tissue. 1, p27 KIP 1 Rabbit Monoclonal Antibody was diluted at 1:200(4°C,overnight). 2, EDTA pH 9.0 was used for antibody retrieval(>98°C,20min). 3,Secondary antibody was diluted at 1:200(room temperature, 30min).

Immunohistochemical analysis of paraffin-embedded mouse brain tissue. 1, p27 KIP 1 Rabbit Monoclonal Antibody was diluted at 1:200(4°C,overnight). 2, EDTA pH 9.0 was used for antibody retrieval(>98°C,20min). 3,Secondary antibody was diluted at 1:200(room temperature, 30min).
