Product Name: Recombinant Human Transferrin (C-6His) EnkiLife Catalog #: PHH1493

概述 (Summary)

英文全称 Serotransferrin/Tf/Transferrin

纯度 (Purity) Greater than 95% as determined by reducing SDS-PAGE

内毒素 (Endotoxin level) <1 EU/μg as determined by LAL test.

蛋白构建 (Construction) Recombinant Human Transferrin is produced by our Mammalian

expression system and the target gene encoding Val20-Pro698 is

expressed with a 6His tag at the C-terminus.

Accession # AAA61140.1

蛋白标签 (Tag)

表达宿主 (Host) Human Cells

种属 (Species) Human

预测分子量 (Predicted MW) 76.2 KDa

蛋白形态 (Form) Lyophilized from a 0.2 µm filtered solution of PBS, pH 7.4.

储存缓冲液 (Buffer)

运输方式 (Shipping) The product is shipped at ambient temperature. Upon receipt, store it

immediately at the temperature listed below.

稳定性&储存 (Stability &Storage) Store at ≤-70°C, stable for 6 months after receipt. Store at ≤-70°C, stable for 3

months under sterile conditions after opening. Please minimize freeze-thaw

cycles.

复溶 (Reconstitution) Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It

Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to

is not recommended to reconstitute to a concentration less than 100µg/ml.

reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized

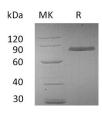

protein in distilled water. Please aliquot the reconstituted solution to minimize

freeze-thaw cycles.

背景 (Background)

分子別名 (Alternative Names) 背景介绍 (References) Serotransferrin; Transferrin; Beta-1 metal-binding globulin; Siderophilin; TF Serotransferrin belongs to transferrin family, and contains 2 transferrin-like domains. The protein is a secreted protein, and expressed by the liver and secreted in plasma. Transferrins are iron binding transport proteins which can bind two Fe3+ ions in association with the binding of an anion. It is responsible for the transport of iron from sites of absorption and heme degradation to those of storage and utilization. Serum transferrin may also have a further role in stimulating cell proliferation.

注意事项 (Note)

For Research Use Only, Not for Diagnostic Use.
