背景 (Background)

分子别名 (Alternative Names)

Acrosomal Protein SP-10; Acrosomal Vesicle Protein 1; ACRV1

背景介绍 (References)

Acrosomal Protein SP-10 is a testis-specific differentiation antigen that is associated with acrosomal membranes and matrix of mature sperm. It has been detected in several species including humans. Acrosomal Protein SP-10 may be involved in sperm-zona binding or penetration as a potential contraceptive vaccine immunogen for humans. ACRV1 is also an intra-acrosomal protein that is considered to be a vaccine candidate for immunocontraception.
